SRI ABDUL KHUDDUS ANWAR.—In answer to (b) you have stated that 83 engines have been manufactured. Were they examined by experts either from Industries Department or Electricity Department ?

† SRI D. DEVARAJ URUS.—I have given a list of firms to which these engines have been sold. All of them were sold over a period of 3-5 years. I don't know whether they have examined or not. Much of those people who have bought these engines are all private people. Unless they know that they are good why should they buy them?

SRI ABDUL KHUDDUS ANWAR.—Our firms have purchased for Kalinadi Project etc., two engines each for which last time, I had given details. Some of the engines are not in a satisfactory condition. Almost all the 32 engines were condemned by the other concerns. The Durgapur concern has condemned it. In reply to my question the hon. Minister gave a reply that they were supplied by a Padmabhushan and everything is O. K.

SRI D. DEVARAJ URUS.—There are not only public sector industries but private sector industries. You will kindly go through the Annexure. In addition to them, there are many other industries which have bought.

SRI M. S. KRISHNAN.—Have you received any complaints in regard to the working of these Diesel Locos manufactured by Suri and Nayar concern?

SRI D. DEVARAJ URUS.—The Visveshwariya Iron & Steel Co Ltd., Bhadravathi, has brought them; the report is that they are satisfactory. I do not know about the private parties. If there is a complaint, they will naturally complain to the manufacturers. We have not so far received any complaints. There may be complaints or there may not be complaints. If the hon'ble Member has received any complaints, I welcome him to give those complaints. Let me examine them.

SRI ABDUL KHUDDUS ANWAR.—I have given a complaint to the Duty Inspector.

SRI D. DEVARAJ URUS.—Whom should I believe Madam Speaker? Should I believe the Managing Director or the member? I got a report that they are working alright. How can I say they are not alright? After examination only, they have given the report they are alright.

SRI ABDUL KHUDDUS ANWAR.—The P.U.C. has examined and given a report. They are not at all working. That is a bogus concern. They have taken a commission of 8,000 rupees. You please get the Report. The Report is on the table. In my speech also, I referred to it. The Hon'ble Minister said it will be set right.

SRI M. S. KRISHNAN.—In view of what the hon'ble Member is saying, will the Government consider conducting a separate enquiry other than the Managing Director of VESL? The hon'ble Member has been making serious complaints.

SRI D. DEVARAJ URUS.—The hon'ble member referred to P. U. C. report according to which there is no particular mention about the working of these engines. He still doubts they are not working. I will have my own investigation. Government will satisfy itself. I am not interested in shielding anybody much less this firm. Now that it has been brought to the notice of the Government, I shall see that my own investigation is conducted and you are satisfied.

Training of un-employed Persons in Fisheries

369. SRI KAGODU THIMMAPPA (Sagar).—Will the Minister for Fisheries and Horticulture be pleased to state:—

(a) the number of un-employed persons trained in fisheries in South and North Kanara Districts;

(b) whether it is a fact that these unemployed persons have requested for loan for purchasing fishing boats, if so, the steps taken in this behalf?

SRI K. T. RATHOD (Minister for Fisheries and Horticulture)—

(a) Nil.

(b) The Fisheries Department is not giving loan for purchasing boats.
